RUBBER STAMPS MADE TO ORDER

Rubber stamps can be made of your design or text for as little as £4.25 (plus VAT).

We supply conventional rubber stamps made using a good quality natural red rubber mounted on a clear perspex base with a wooden handle. These stamps require a separate inkpad.

We also supply Self-inking stamps.

To design a rubber stamp use the following guidelines.

1. Print your copy clearly. Use capitals and small letters as required.
2. If the design for the stamp is artwork we must have a good quality black on white image. Blue biros, inkjets, pencil, or poor quality photocopies cannot be made into good quality stamps. For signature stamps, a signature clearly written with black ink rather than felt tip, on white unruled paper is required. Write your signature two or three times in the size you want and mark the one you prefer.
3. Use the price grid to choose the size of stamp required. Measure from the bottom left hand corner to determine the price. For example a stamp 25 x 50 mm costs £10.00. The price in brackets includes VAT at 17.5% in Europe. We price rubber stamps by area, not by complexity of design or the number of words. There are no extra charges for typesetting.
4. Choose a typeface, style of layout & indicate if there are any variations in size or style of type, such as bold or italic type. Or words larger than others. The layout of your copy can be 'set left' i.e. a straight left margin; 'set right', 'centred', or 'justified'. If you need assistance with layout or typestyles please phone or visit our shop.
5. If you require a border or other lines draw them on your copy. There is no extra charge for having a border.
